## MILLWORK

**RANDY WOLFE**, INDUSTRY PARTNER  
WOLFE WOODWORKING, INC.

**T**HE OWNERS OF THIS HOME wanted a “dream” kitchen redesign with exquisitely crafted and uniquely functional distressed-alder cabinetry. The client submitted rough concept drawings and imagery, from which we envisioned a redesign including increasing the cabinetry size and height to accentuate the vast openness of the 18 ½-foot-high ceiling, creating a dramatic, one-of-a-kind focal point. With budget concerns, the clients initially rejected the redesign of accentuated openness, choosing only to build up to the bottom of the existing soffits. After the cabinetry was seen staged, then approved, the clients reconsidered, accepting the initial design.

The upper soffit area was designed to congruently appear as extended cabinetry, raising the hood to 14 feet. The beautifully executed plan included distinctive features like maximum interior storage with pantry swing-outs, back-of-door hanging, full-height pantry pull-out, upper spice and oil pull-outs above the range, blender shelf-lifts and more.
